

For EMERGENCY RESPONSE EFFICIENCY

CDK / Steelbro Sidelifters permit high-density, pre-packaged storage of emergency response equipment, supplies and mobile facilities in ISO containers . . . and quick, efficient transport and delivery to disaster sites with just one vehicle. Using a standard Sidelifter trailer or truck eliminates the need for multiple specialty vehicles - and excessive handling of supplies and equipment - to get the right materials where they are needed right away!

High-Density, Secure Storage Area (Indoors or Outdoors)

- The CDK / Steelbro Sidelifter:**
- Requires Only 1 Operator
 - Load/Unload Within 5 Minutes
 - Handles 20 or 40-ft. ISO Containers Up to 36 Tons
 - Stacks Containers 2-High
 - Loads Containers to/from Other Trucks, Trailers, Railcars
 - Handles Non-Containerized Vehicles, Pallets, Etc.

Only 1 Vehicle Required to Perform Multiple Missions

- ISO Containers May Include:**
- Hazmat Response Supplies/Equipment
 - Petroleum Absorbents
 - Firefighting Foam (55 Gal Drums)
 - Decontamination Equipment/Supplies
 - Collapsed Building Equipment
 - Rescue Equipment
 - Emergency Medical Supplies
 - Mobile Office / Command Post Facility
 - Mobile Generators or Water Purification Systems

Emergency / Disaster Site (On Pavement or Terrain)
